

The Eventsman

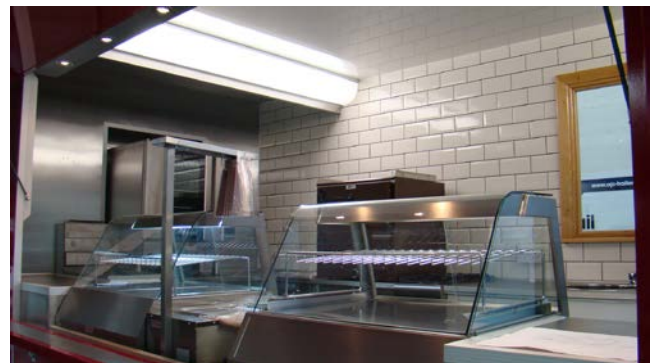

from AJC Retail

The ultimate in catering trailers.

The Eventsman is without doubt the ultimate catering trailer available from AJC Retail Solutions. Using the latest materials and construction techniques it is designed with the serious caterer in mind.

The Eventsman originates from the already very successful Trademaster, with an up graded specification. Sizes range from 12' / 3.7m to 22' / 6.7m. It is available in a wide range of shell and interior designs, tailored to your own specific requirements.

Available in both static and hydraulic: The Eventsman hydraulic has been a popular choice as an option in the range; add to that the stylish AJC designed moulded roof option and you are guaranteed to stand out from the competition. An additional advantage of our moulded roof is the loft hatch access to utilize valuable extra storage space.

The Eventsman

The ultimate in catering trailers

VISUALISE YOUR TRAILER

The design process is critical to taking your ideas to reality. The design and layout of your unit and selection of appropriate equipment are critical to your business success.

Once we have a clear understanding of your needs, we will provide you with a line by line quote along and discuss the potential layout of your unit.

Once the order is finalised, we can then produce a 3D drawing giving you detailed information for your approval, along with presentation visuals if desired.
